SHARING FROM CHOI CHI HOI

Why did you choose PolyU?
PolyU, for me, is a special university. It provides several kinds of professional programmes, such as Optometry, Radiography, Physiotherapy, that are not available at other universities in Hong Kong. This variety is why I chose PolyU.

What does PolyU give you?
PolyU is not only a place for education, but also provides a wonderful university life. Striving to develop all-round graduates with ethical responsibility and professional competence, it offers such opportunities as the co-curricular achievement programme and physical education programme.

Have you joined any exchange/placement programmes offered by PolyU?
I joined an exchange programme to one of the most famous hospitals in Shanghai. PolyU provided good arrangements for transportation and accommodation. Through the programme, I learned a great deal related to my future career. It also allowed me to broaden my horizons.
